

INTERNATIONAL FUND INVESTMENT

Luxembourg: Global base for funds?

Webcast Event & Special Report

As International Fund Investment (IFI) prepares to enter its third decade, it is hosting a wide-ranging live webcast for fund managers around the world on the future of Luxembourg as a global centre for funds. IFI is also publishing a Special Report on Luxembourg which will cover all aspects of Luxembourg's development as a global fund centre.

Broadcast Event

Via its website, FundDomiciles.com, IFI is hosting a live webcast debate on Luxembourg's future around the world. It will take place in Luxembourg on September 27.

Those following the webcast online will be able to email in questions. The debate will start with a presentation of the research results surrounding the prospects for offshore redomiciliation to the EU and alternative UCITS. It will last for approximately 1 ½ hours and will take place in the afternoon (to allow better interested parties around the world to follow the webcast).

Video highlights of the debate will also be available after the event on FundDomiciles.com. (In March IFI hosted a webcast from Luxembourg which was followed live by 164 people. And nearly 1,000 others subsequently clicked on the edited highlights on FundDomiciles.com.)

Media (Electronic & print)

IFI's Special Report will be published on FundDomiciles.com as well as in hard copy in International Fund Investment. The hard copy version of the report will be in the issue of IFI that will be circulated at the ALFI-NICSA conference on Sept 28 and 29.

Participation options

Sponsor webcast*	€2,750
Advertise in IFI's Special Report	€2,750
Sponsor webcast and advertise in the report (combined)	€4,000
